CAN IT BE MADE BETTER?

We looked at popular products and started with a simple question: Can it be made better?

This led us to completely rethink how products are designed, built, and guaranteed. Each step along the way, we had you, our customer, front-and-center in our minds.

QUALITY

Made with quality materials by industry experts, offering strength and long-lasting durability to help drive your business forward.

IN STOCK

Exclusive Brands™ products are available to ship within 24 hours, helping your day-to-day operations stay on track.

INDUSTRY STANDARDS

Designed to meet or exceed industry standards, carrying our full endorsement.

SOMETHING EXTRA

Made with your business in mind and constructed with precision, offering added features and robust support components.

WARRANTY

We back each of our products with a competitive warranty for your peace of mind. Warranty length varies by product and some exclusion and restrictions apply.

MADE TO EXCEED.™

HEAVY-DUTY 18- & 20-GAUGE INDUSTRIAL STEEL SHELVING

- X-shaped anti-sway braces increase rigidity and provide more support on uneven floors than regular lateral braces
- Braces cover perimeter of rack instead of aligning at just one point

Customized to your special needs at no extra cost, heavy-duty steel shelving units have been engineered to adapt to your storage requirements. Ideal for stockroom, factory, or office where extra storage space is needed. Ribbed roll-formed steel shelves with integral box beam-reinforced front and rear edges for greater load capacity.

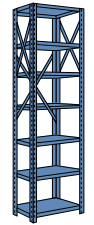

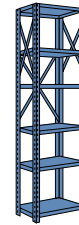

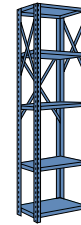

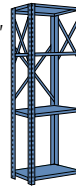

Shelves are easily adjustable on 1" centers. Rib-reinforced 14-gauge 1" x 2" steel posts. Phosphatized to prevent corrosion with maximum paint adhesion. Finished in long-lasting, baked-on gray enamel.

562167A

73" | 20 gauge | 36" x 18" | 6 shelves

Consists of 4 posts, specified number of shelves, 4 clips per shelf, 1 pair back braces, 2 pair of side braces, and necessary nuts and bolts.

108	Two 52"	144	Three 58"

STEEL WIRE MESH DECKING

Strong 6-gauge gray baked-enamel finished wire decking features welded construction and 14-gauge channel supports. Unlike wood or metal decking, wire permits light, air, and sprinkler penetration; allows a clear view of upper tiers; and minimizes dust and debris accumulation. Easy installation—simply drop into place over beams. Use with beams that have 1¹/₂" or 1⁵/₈" step.

RACK PROTECTORS

799047

These rack protectors provide impact-resistance against forklifts, pallet jacks, and dolly carts to prevent rack damage and content spillage. Flexible EVA polyethylene construction features an air chamber designed to deflect impact energy away from the rack for added structural protection. Finish improves rack visibility in dim environments for personnel safety. Dual hook-and-loop fasteners easily secure the protectors to racks.

PORTABLE STACK RACKS

Stacking storage racks provide a convenient, economical alternative to pallet racks. These forkliftable storage racks accept pallet storage or can be used as a pallet itself. Base allows 4-way forklift access for portability even when loaded. When stacked, storage racks eliminate load-on-load contact. Easy modular assembly. Blue enamel finish.

DESIGN YOUR NEW MODULAR OFFICE

Easily add office space inside your building.

MODULAR INPLANT OFFICES

Create cost-effective office spaces anywhere. Each unit features a four-wall enclosure with prefinished vinyl-covered drywall laminated to a solid EPS core for high-level sound control and thermal insulation. Most models have a recommended clearance height of 9' to ensure the metal roof deck can be easily installed.

RAISE THE DECK WITHOUT RAISING A FUSS WITH MEZZANINES

EQUIPTO MEZZANINE WITH SOLID STEEL GRATING DECK

8' by 12' mezzanine; 8' in height with safety-yellow railings, a lift gate and a 48" wide OSHA-compliant stairway with a 4'x4' landing. Deck is solid steel grating.

798929

MEZZANINE SAFETY GATE

Allows easy and safe access to mezzanines using manual swing-action gates on each end. Balanced for ease of operation without use of springs. Mezzanine safety gate is made of heavy-duty welded steel. Meets OSHA requirements. 68½"W x 76"D x 79½"H.

UNEX PROVIDES UNIQUE SOLUTIONS FOR MOVING AND STORING PRODUCTS OF ALL SIZES

FLOW CELL HEAVY-DUTY GRAVITY RACK WITH WHEELBED STARTER

This unit has a SpanTrack wheelbed that allows front-feeds to keep products at pick point. Uprights and beams are made from powder-coated tube steel with welded plates for floor-mounting. Low-friction wheels for easy mobility with 1000-lb. capacity per level.

31229022

SPANTRACK GRAVITY FLOW ROLLER LANE

This roller track drops onto a standard rack's step beams to create gravity-flow shelving that maximizes inaccessible space, minimizes loading time, and ensures stock rotation. Aluminum rollers with galvanized steel tracks ensure durability, and no tools are required for installation. 42"D x 12"W, 50-lb. capacity.

30106439

SPEEDCELL BAY

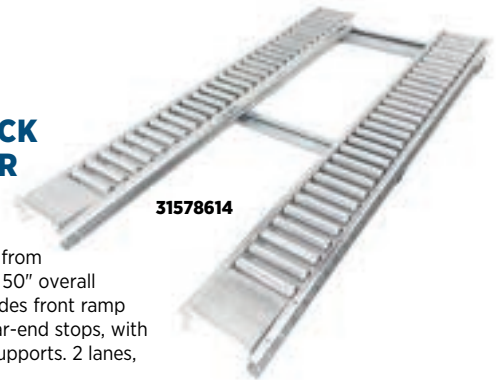

Designed to maximize pallet rack space, the Speedcell Bay improves access and accommodates smaller items like apparel and open cases. The columns are corrosion- and fire-resistant and the whole system easily fits most pallet racks. 96"W x 42-48"D x 86"H; 84 cells.

32313522

PALLET TRACK STEEL FLOOR CONVEYOR

Ideal for fast-moving SKUs picked straight from the pallet. 96" long x 50" overall width, the track includes front ramp stops, fixed-angle rear-end stops, with mid- and rear-floor supports. 2 lanes, 8' L, 8000 lb. cap.

31578614

MOVE AND STORE WITH PERFECT STORAGE SOLUTIONS

FLOW CELL MOBILE PICK TRAY RACK

For use with Mobile Flow Rack-Style Storage Racking. Includes 3 tilted shelves, 4"x2" swivel casters with side brake, 3000 lb./unit capacity, 1000 lb./level, 76"W x 28" D x 72"H.

ORGANIZE YOUR WORKSPACE

A properly appointed and organized workspace is essential for productivity and safety. When there's a place for tools, equipment, parts, and other work essentials, employees and technicians can more easily find what they're looking, work faster and efficiently, and it reduces instances of ordering supplies that you actually have, but cannot see—affecting your bottom line with wasted time and money.

Key Benefits:

- Perfect for the production floor, materials management, supply rooms, workstations and tool crib
- Maximize floor, counter and wall space
- Control proper rotation of date-coded supplies
- An organized workspace reduces the risk of a trip and fall incident

Choosing the Perfect Bin

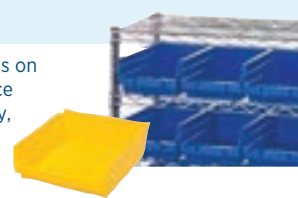

HANGING/STACKING BINS

Maximize wall and bench space while keeping work areas clean and organized. Most bins have front access for easier use when stacked.

SHELF BINS

Perfect for storing parts, stock, or tools on wire shelves, they maximize shelf space and improve organization, productivity, & efficiency. Stackable when empty for space-saving storage.

CORRUGATED CARDBOARD BINS

Available in a variety of sizes & styles, these bins offer organization on a budget. Replace as needed and use with non-oily items in dry areas.

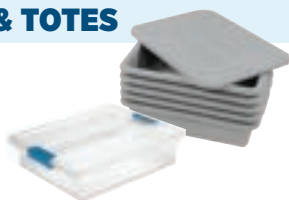

DIVIDABLE GRID CONTAINERS

Enjoy flexible storage for small parts and components in a single bin with greater organization and stock control. Most are available with clear lids and ID holders.

4-SIDED CONTAINERS & TOTES

Available in a variety of configurations, models of the same size are stackable with their lids on and nest without lids. Options include with or without removeable lids and attached-lids.

CONDUCTIVE BINS

Conductive bins are made of carbon-filled polypropylene and protect sensitive electronic components, like circuit boards, from damage caused by electrostatic buildup.

FIBERGLASS BINS

A step up in durability from standard plastic bins, fiberglass bins are ideal for use in extreme temperature conditions or with heavy parts. They are extremely strong and resilient.

STEEL BINS

Steel bins are the strongest bins available, and can stand up to extreme temperatures, hard use, and heavy parts without failing. These bins are made of channel-reinforced steel.

Let us help you choose the perfect solution to organize your workspace

PREMIUM STACK AND HANG BINS

- Made of FDA-compliant water- and corrosion-proof polypropylene, to withstand freezers and autoclaves from -40°F to 250°F
- Reinforced walls add strength; wide top ledge permits stable, higher stacking; full-width back hanger lip to hang on louvers
- Anti-slide stop prevents shifting when stacked
- Large front label slot for easy identification
- Black conductive bins are made with carbon-filled polypropylene, protects electronic components from static electricity and electromagnetic interference
- Tested to meet Mils Spec Mil-B-81075B, surface resistivity less than 105ohms/sq. when tested per ASTM D25
- Available in a wide range of sizes and colors
- Specify color suffix: Blue (BL), Yellow (YL), Red (RD), Beige (BG), Green (GN), Black (BK), or Clear (CL)

Overall W" x D" x H"	Ctn. Qty.	Model	Conductive Bin (Black) Model

16½ x 14¾ x 7	6	269686	184878

Yellow bins cups accessory sold separately. Model **550105YL**

PREMIUM SHELF BINS

- Designed for use on 12", 18", and 24"-shelving units and racks
- Nestable when empty to save storage space
- Wide hopper front for easy access, and wide label slot for clear identification
- Plastic bins are made of durable high-density polypropylene and are waterproof, chemical-, grease-, and oil-resistant
- Specify color suffix: Blue (BL), Yellow (YL), Red (RD), Green (GN), Stone (BG) and Clear (CL)

KEEP IT ORGANIZED WITH OUR PREMIUM BIN OPTIONS

PREMIUM GIANT STORAGE BINS

Giant plastic storage bins help to organize bulky items in warehouses, assembly lines, and maintenance areas. 24"-, 30"-, and 36"-deep Jumbo Hulk Bins and Magnum Bins

- Feature reinforced walls, adding strength and rigidity
- Wide top-ledge permits stable higher stacking
- Anti-slide stop prevents bins from shifting when stacked
- Rack bins are specifically designed to fit pallet racks
- Features 41¾" length to store large items and ensure full use of space on 42"D racks
- Base includes eight ¼" drill hole patterns for easy hole insertion that allows drainage and air circulation
- Mobile Giant bins* hold up 250 lbs.
- Move easily on 3" non-marring hard rubber swivel-casters with brakes

DIVIDABLE GRID CONTAINERS

- Convenient, space-saving, organized storage for multi-sized contents
- Most efficient method of compartmentalizing and protecting small to medium parts
- Molded-in stacking ridge ensures containers will stack securely with or without covers
- Large, smooth surface area on all four sides for content identification
- Molded-in slots accept optional length and width dividers
- Conductive Grid Containers* are injection-molded with a carbon-filled copolymer polypropylene, which protects sensitive electronic components from typical electromagnetic interference (EMI). Electrostatic Decay Rate is tested to meet Mil Spec Mil-B-81075B at less than 0.1 seconds. Surface resistivity is less than 105 Ohms/Sq. when tested per ASTM-D257

PORTABLE EXPANDABLE CONVEYORS

Instantly set up conveyor lines for shipping, receiving, assembly, and packaging areas. Rugged 5/16" steel axles and self-tracking skate wheels with enclosed steel ball bearings offer smooth material flow. 175 lbs. per foot capacity. 7" minimum package size. Seven zinc-plated telescopic legs adjust independently from 31¼" to 40½"H to achieve maximum gravity flow and create banked curves. All units bend around a 27" radius. Includes couplers to connect additional conveyors. Widths available from 14" to 24" with wheels per axle.

989018

POWER SCISSOR LIFT TABLE

Provides reduced worker strain at a very affordable price. Table promotes employee safety by lifting loads to a comfortable working height. Hand-held pushbutton pendant control. Powerful 1½ HP 115V 1-phase motor and pump assembly offer years of use. Captured rollers reduce the risk of injury. Chip-resistant powder coat finish. Meets ANSI standards for lift tables.

BISHAMON® EZ LOADER® SELF-LEVELING PALLET CAROUSEL POSITIONER

The Bishamon® Ez Loader® Self-Leveling Pallet Carousel Positioner adjusts automatically, keeping the top of the load at a convenient working height via a proven Firestone Airstroke™ Actuator pneumatic support system. Totally self-contained and does not require constant air source (requires initial air pressure of 60 psi). A three-position. 49"L x 24-5/16"W base and 43" O.D. turntable. Has a lowered height of 10-1/2" and a raised height of 30-1/2". CE marked under Machinery Directive (2006/42/EC).

MOVE IT ALONG WITH OUR MATERIAL HANDLING OPTIONS

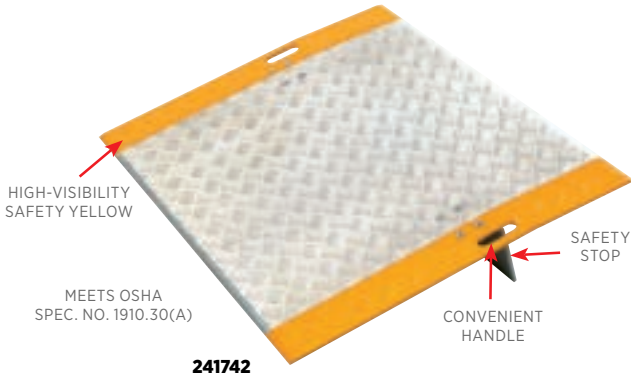

988946

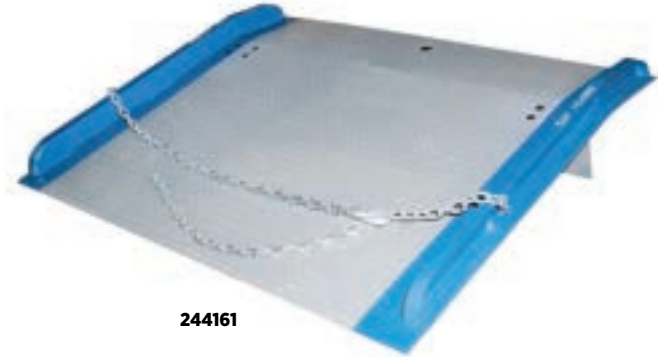

PALLET TURNTABLE

Increase productivity and reduce muscle strain from stretching and reaching over and around loads. Precision anti-friction ball bearings allow for 360° pallet rotation by a single person. Low-profile 7/8" overall height allows pallet truck access for efficient load transfer without a pit. Includes lock to prevent unwanted rotation. Strong steel construction has chip-resistant finish. Unit can be moved; does not require lagging to the floor.

244161

HIGH-TRACTION ALUMINUM DOCK PLATE

Lightweight 3/8" aluminum is strong enough to withstand heavy traffic with diamond tread surface for traction. Integrated handholds allow it to be lifted easily. The 11" apron with beveled edges and an 11° crown provide smooth, efficient entry and exit. Includes a bolted safety stop to keep plate in position. Width should be 12" wider than load. Not for use with rider trucks.

241742	36 x 24	1	3350	35

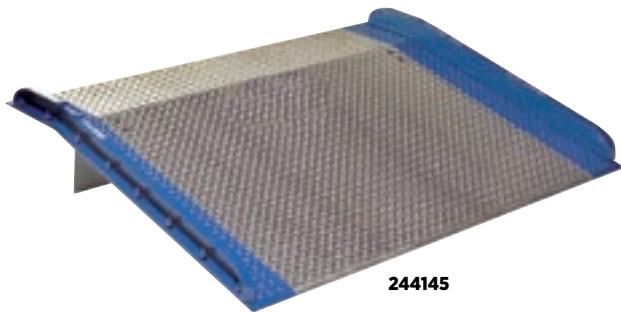

*Height is the difference above or below dock.

DOCK BOARD WITH STEEL CURBS

Full-length handgrip for safe & easy handling with a slip-resistant diamond tread surface. Beveled entry and exit edges, 11" apron, and 11° crown angle offer smooth transition between truck and dock. Safety stop underneath helps secure plate in position. Width should be 12" wider than load. Not for use with rider trucks.

**TAKE A LOAD OFF,
AND PUT IT ON OUR DOCKS**

244145

DOCK BOARD

Speed up loading operations, help prevent accidents, and reduce labor costs. Resilient aluminum construction with anti-skid diamond tread surface and high-visibility beveled curbs for maximum safety. Bolted-on steel curbs offer excellent impact-resistance to help prevent run-off. Safety stop on underside, so board will not move under load. An 11° angle supplied unless another angle of operation is specified. 11" entry lip with rounded nose protects tires. Meets OSHA requirements 1910.30(A).

Model	W"x L"	Cap. Lbs.	Wt. Lbs.
244145	60 x 36	10,000	127

**BLUFF® EZ-PULL
MECHANICAL EDGE-OF-
DOCK LEVELER**

Attaches easily to steel nosing of existing dock, saving valuable dock loading space. Easy positioning by lifting and pulling the self-storing handle. Counterbalanced extension spring lift to ensure one person, one hand operation. High-strength 3/8" steel safety plate and heavy-duty hinges. Automatically releases and returns to stored position when truck exits.

HOW TO SELECT THE PROPER WHEELS AND CASTERS

1 Select wheel type

HARD RUBBER - Highly resistant to water, oil, and animal fats. Heavy load-carrying capability and floor protection.

STEEL - Carbon steel casting. Unbreakable under in normal service.

SEMI-PNEUMATIC - For light-duty trailers, dollies, or hand trucks. "Puncture-proof", no inner tube.

FULL PNEUMATIC - For handling delicate instruments or fragile parts. Floats loads over rough floors or obstructions.

MOLD-ON RUBBER - For full floor protection where greater capacities, cushioning, and less "load starting" effort is required.

MOLDED PLASTIC/POLYOLEFIN - Resistant to many chemicals and heat. High payload capacity, protects floors, easy rolling, impact-resistant.

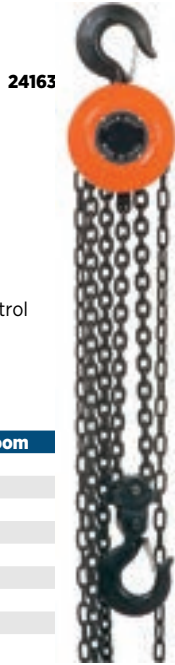

POLYURETHANE - Long-lasting and protects floors with a high payload capacity and excellent cushioning.

2 Determine load capacity

Per caster by adding load and truck weight and dividing result by number of supporting casters. For specific recommendations consult our engineering department.

3 Wheel diameter

The greater the wheel diameter, the easier it is to move.

24163

CHAIN HOIST

- Drop-forged steel swivel hook with safety latch
- Hardened steel load chain for long life
- Lubrication-free load brake offers positive load control
- Tempered molybdenum steel gears

REDUCE FATIGUE & WORRY CHOOSE THE RIGHT FLOOR MAT

The right floor mat can increase productivity by improving safety, minimizing fatigue, and easing chronic back and leg injuries. Special mats can protect sensitive electronics and offer sure footing in wet and slippery conditions.

ANTI-FATIGUE MATS

Reduce discomfort caused by standing on a hard floor for an extended period of time and help keep employees safe within your facility.

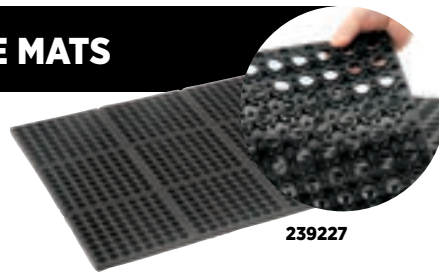

800529

DIAMOND PLATE ANTI-FATIGUE MAT

- Reduce back and knee strains
- Improve working conditions for employees
- Save your company in workers' comp claims and lost work days
- Help reduce insurance claims

DRAINAGE MATS

Mats built to withstand wet and dry work areas that will minimize slipping and are easy to clean

239227

APACHE MILLS PERFORMA 100N™ MODULAR DRAINAGE MAT

- Customize to both width and length with built-in connectors
- Drainage mat allows liquid and water to pass through matting

ENTRANCE MATS

Entry mats prevent dirt and debris from being tracked into your facility, and they absorb water & moisture to help reduce the risk of slips & falls.

B218777

M&A MATTING SUPERSCAPE™ SLIP-RESISTANT ENTRANCE MAT

- 3'x5' 100% Nitrile Rubber Mat
- Provides slip-resistant surface
- Molded tread-surface effectively scrape tough dirt and grime off shoes
- Earth friendly mat has 20% recycled Nitrile rubber
- Grease Proof

ANTI-STATIC MATS

Conductive runners allow your sensitive components to remain grounded and prevents static discharges from causing irreversible damage while offering a smooth work surface.

442427

WEARWELL® ELECTRICALLY-CONDUCTIVE DIAMOND PLATE OR SMOOTH MAT

- Nitrile rubber composite sponge base reduces worker fatigue

DIAMOND PLATE

- 3/16" vinyl diamond plate top surface comes with 1 grounding snap per mat
- 9/16" thick diamond surface offers 5 x 10⁵ to 1 x 10⁷ ohms resistance

SMOOTH

- 1/8" smooth vinyl surface comes with 1 grounding snap per mat
- 1/2" thick Smooth surface offers 1 x 10⁴ to 1 x 10⁶ ohms resistance

RUBBERMAID® CARTS & BINS THAT ARE MAID FOR EVERY JOB.

498164

PLASTIC DECK PLATFORM TRUCK

Its tough, high-impact honeycomb plastic construction is virtually maintenance-free and will not rust, dent, chip or discolor. It features a powder-coated, removable, cross-braced push handle and 8" thermoplastic rubber wheels (2 swivel, 2 rigid) for easy maneuverability. 48x24", 2000 Lb. Cap.

498402

LIGHT-DUTY PLASTIC TILT TRUCK

Designed for 1-person operation, this durable polyethylene truck efficiently handles industrial waste. It meets FDA and OSHA food and sanitary requirements, making it ideal for recyclable products. Seamless, smooth, ribbed-plastic construction cleans easily. Counterbalanced design helps to prevent "backing up" when tilting. 1 Cu. Yd. Cap, 850 Lb. Cap.

JANITOR CART WITH 25-GALLON VINYL BAG

Constructed of easy-to-clean, reinforced, smooth-walled plastic, it has compartments and hooks to organize equipment & supplies. A zippered yellow vinyl bag makes trash removal easy. Rolls on non-marking, 4" swivel casters and 8" diameter rear wheels. Bottom shelf holds a mop bucket or a 32-gallon Brute waste can. Wringer bucket and supplies sold separately.

239044BK

PLASTIC UTILITY CART

This handy, durable utility cart features rust-, dent-, chip- and peel-proof structural foam and an ergonomic push handle that improves control and worker safety. Molded-in storage compartments, holsters, hooks and notches increase usability. 500 lb. capacity. Four 5" casters, 45"L x 26"W x 33"H, 2-swivel & 2 fixed.

241559

B55835

HYGEN® Q560 17" QUICK CONNECT WET/DRY FRAME

Easy, one-step connecting mechanism for quick mop assembly and changeover. Thin, flat frame easily reaches under low objects for thorough cleaning. Works with optional HYGEN microfiber pads. 24" frame includes pull-type squeegee for water and debris collection. Sold 6 frames per case.

B55831

HYGEN® 18" MICROFIBER MOP

High-quality, ultra-fine microfiber removes bacteria, making cleaning quick and effective. Fibers pick up and hold dust, dirt, and grime. Hypoallergenic, lint-free, nonabrasive and color-coded to improve sanitization. Double-bound edges for durability. Pads are stain-resistant and machine washable. 12 pads/case.

B2246436

SLIM JIM RECYCLING STATION, LANDFILL/ MIXED RECYCLING

An adaptable recycling solution offers a front-of-house look with back-of-house functionality. Simple lid openings help patrons and staff sort recyclables more effectively. Components snap in place without the use of hardware. Includes two 23-gallon containers.

B3082558

VENTED WHEELED BRUTE CONTAINER

This 4-pack of gray 44-gallon Brute containers feature DuraTread never-flat wheels that allow you to move loads easier, even over rough terrain, and an ergonomic handle is designed to require less force when moving heavy loads up to 175 Lbs. Venting channels make lifting out liners easier, improving productivity and reducing the risk of injury.

STAINLESS STEEL HEPA WET/DRY VACUUMS

- Industrial-grade wet/dry vacuums feature a high-quality cartridge
- Additional drywall bag for fine dust
- Super quiet motors
- On-board tool kit
- No messy filters

WET/DRY SQUEEGEE VACUUM

- Corrosion- and impact-resistant rotationally-molded polyethylene
- 2-stage, 1.3 peak horsepower motor
- Includes 24.8"W front-mount squeegee assembly
- 8" diameter stair-climbing wheels
- On-board tool kit included

CANISTER VACUUM

- Lightweight and powerful
- HEPA filter removes 99.97% of air particles down to 0.3 microns
- Low operating noise, appropriate for public areas
- Washable sack filter & motor filter
- Meets OSHA filtration requirements

UPRIGHT VACUUM

- Features a 12" cleaning path, 50' power cord
- 6-position height adjustment
- Built-in magnet under the vacuum head picks up metal debris
- V-shaped side motor vents help provide greater airflow and improve performance

FLOOR BURNISHERS

- Heavy-duty 1.5 HP motor with handle-mounted circuit breaker for long life
- Safety lock-out switch on handle with thumb control
- Wheels allow tilt-and-roll mobility when not in use
- CSA listed

FLOOR MACHINES

- Low-speed operation for use on wet hard and tile floors
- Heavy-duty 1.5 peak horsepower motor
- Triple-planetary, all-steel gear box transmission for long life
- Safety lock-out switch on handle with easy access thumb control

641751

641264

641244

AUTOMATIC SCRUBBERS

Automatic scrubbers feature rotationally-molded polyethylene tanks that are corrosion-and impact-resistant. Pad Assist models help the machine move forward by the friction of the scrub deck against the floor, but the machine needs to be tilted forward to engage spinning pad. Traction Drive/Self Propel models use an electric motor and require less effort to operate, allowing for reduced operator fatigue. Battery operated models have a 4.5 hour runtime and feature a battery energy management system with digital controller for longer runtime. Includes heavy-duty cast aluminum squeegee assembly. Large capacity solution and recovery tanks allow for low maintenance. 3 Year Limited Warranty; Lifetime Warranty On Housing.

641820

CAT® C70RX AUTO RIDE-ON SWEEPER WITH A/C CABIN

Thanks to its large-capacity tanks and array of side and center roller brushes, this sweeper boasts a wide 70" cleaning path that cleans 204,514 sq. ft./hr. It is outfitted with technology that shakes dust off the filters and a front mister that provides both dust suppression and consistent suction. For safety, it has a rearview backup camera, turn signals, seatbelt, LED headlight, blue safety light, and a non-slip platform

CAT® FLOOR MACHINES, VACUUMS AND SWEEPERS. AVAILABLE FOR YOUR NEEDS.

641747

CAT® C40R AUTO RIDE-ON FLOOR SCRUBBER

With a 40" cleaning path, excellent brush pressure, a 220 RPM motor, and 73,518 sq. ft./hr of coverage, this scrubber has safety features that include a seatbelt, front warning light, front bumpers, and a non-slip platform.

641748

CAT® C49R AUTO RIDE-ON SWEEPER

Equipped with two independent side brushes that provide a wide 49" cleaning path, the CAT® C49R is ideal for use on concrete, ceramic tile, marble, and other hard surfaces; and it can handle ramps & inclines up to 18%. Self-cleaning filters and a front water mister provide dust suppression and consistent suction, while the seatbelt, bright LED headlight, and a non-slip diamond tread platform help keep the rider safe.

CAT® C26R AUTO RIDE-ON FLOOR SCRUBBER

- 26" cleaning path with a cleaning capacity of 37,600 sq. ft./hr
- Impact-resistant body, LED headlight, blue warning light
- 23-gallon solution and 26-gallon recovery tanks
- Rechargeable battery, USB charger, phone & cup holders
- For indoor use in dry conditions
- Detachable squeegee assembly with storage
- Comes assembled

641811

7" LCD Touch Screen

641746

CAT® C20T AUTO FLOOR SCRUBBER WITH TRACTION DRIVE

- 7" LCD touchscreen interface
- 20" cleaning path and multiple drive settings
- Polyethylene tanks are corrosion- and impact-resistant
- 100 lb. pad pressure with heavy-duty motor

641745

CAT® C20E ELECTRIC WALK-BEHIND CORDED AUTO FLOOR SCRUBBER

- Corrosion- and impact-resistant polyethylene tanks
- Wide 20" cleaning path for easy maneuverability
- Pad-assist feature helps pull the machine forward
- 110 lbs. brush pressure with heavy-duty motor
- Large 12-gallon solution and 15-gallon recovery tanks
- Heavy-duty cast aluminum squeegee

641757

CAT® C21V STAINLESS STEEL HEPA WET/DRY VACUUM

- HEPA filter and reusable filter bag captures fine dust
- Large 21-gallon tank capacity
- On-board tool storage and 33' GFCI power cord
- Two large rear wheels and two front casters
- Removable canister allows for easy maintenance

641759

CAT® C16V STAINLESS STEEL WET/DRY VACUUM

- Large 16-gallon capacity tank and dolly design increase productivity
- On-board tool storage, and 15' GFCI power cord

641758

CAT® C06V STAINLESS STEEL WET/DRY VACUUM

- On-board tool storage and 15' GFCI power cord
- Four swivel casters provide easy mobility
- 6.6-gallon tank capacity

695753

ELECTRIC FOGGER

- Dispenses disinfectants in fine mist and fog to sterilize and disinfect
- Sprays 3,200+ sq. ft. in 10 minutes
- Adjustable range of 10 - 26'
- Easy to use; includes shoulder strap
- 16½' cord

695803

BATTERY-POWERED BACKPACK ELECTROSTATIC SPRAYER WITH CHARGER

- Delivers up to 4.2-gallons of disinfecting mist to sterilize offices, warehouses, mass transit, etc.
- Electrostatic technology applies a positive charge to the spray droplets so they adhere to surfaces like a magnet
- More uniform coverage than conventional sprayers

AIR MOVER WITH WHEELS

- Efficient drying power for floors, walls, and ceilings
- Industrial design has a 1 HP motor
- 3 speeds, 3 height adjustments
- Integrated wheels

641764

AXIAL AIR MOVER

- Speeds water evaporation time
- Designed for construction and water remediation-related projects
- ½ HP motor, 1,550 CFM
- 2 speeds, 3 height adjustments

641765

CHECK OUT OUR FULL LINE OF FLOOR MACHINES AND VACUUMS

641770

FLOOR DRYER

- Speeds drying of floors, walls, and ceilings
- ¾ HP motor
- 3 speed variations
- Low profile design allows for stacking

641763

AIR MOVER

- ½ HP motor
- 2 speed variations offer efficient levels of drying for floors, walls, and ceilings
- Provides a fast response with a low power draw
- 3 height positions

641767

LOW PROFILE AIR MOVER

- Provides a fast response with a low power draw
- Cuts drying time of floors, walls, and ceilings
- Low-profile design allows stacking of multiple units for transport
- Quiet operation

641769

VERTICAL FLOOR DRYER/BLOWER

- Speeds up water evaporation time
- Compact, portable solution for drying carpets, upholstery, and hard floors
- Provides a fast response with a low power draw
- Quiet operation

10 WAYS TO CREATE THE PERFECT OUTDOOR ESCAPE

In the heat of the moment, you want to make an impression. Your outdoor space is no exception. It should be clean, inviting, and make your guests want to stay for a while. Whether you're looking to make quick upgrades to dining areas, or increase comfort, we have everything you need to design the ideal outdoor escape.

- 1** Decide where improvements and upgrades can be made.
- 2** Understand the common temperature of the area.
- 3** Consider placing canopies around existing outdoor furniture (page 99).
- 4** Install cooling fans in areas where large crowds congregate (page 69).
- 5** Ensure all water fountains and hydration stations are working (page 149).
- 6** Purchase new trash cans, in one color, for a quick upgrade to your space (page 80).
- 7** Place barriers and safety guards where crowd control can become an issue (page 136-137).
- 8** Provide additional seating and picnic tables that can stand up to the weather (page 117-118).
- 9** Place bicycle racks and metal equipment in the shade (page 102).
- 10** Invest in furniture covers to protect chairs and dining areas overnight.

Surrounding your commercial office, hotel, or business with the right outdoor equipment, seating, and amenities is essential to your success—and that's where we come in.

MILLER® SCORPION™ 9'L FALL LIMITER, STEEL TWIST-LOCK CARABINER

The lightweight, compact design provides greater mobility, safety, and versatility compared to shock-absorbing lanyards. It requires less fall clearance and prevents tripping hazards, and a visual load indicator shows when the unit must be replaced. Use as a personal fall limiter or as a traditional retractable lifeline.

MILLER MANYARD® II SHOCK-ABSORBING LANYARD

- Stretchable, shock-absorbing lanyard
- Contracts 6' to 4' to reduce tripping, snagging, or dragging hazards
- Working load of 310 lbs.
- Warning flag to indicate that it has arrested a fall

B313421

MILLER® TITAN NON-STRETCH HARNESS

- Sliding back D-ring
- Universal fit with tongue-buckle legs, mating-buckle chest and shoulder straps; sub-pelvic strap
- Integrated, oversized pull-free lanyard rings
- Bright webbing color is easily visible
- Meets all OSHA, ANSI, & CSA standards
- Available in L/XL

436720

TURBOLITE™ PERSONAL FALL LIMITERS

- Requires less fall clearance than traditional shock-absorbing lanyards
- High-impact nylon housing and abrasion-resistant webbing
- Attaches directly to harness back D-ring
- Rated up to a 400 lb. worker
- Meets OSHA:ANSI Z359.14 Class A & B and CSA Z259.2.2

B313426

CONTRACTOR 1D HARNESS & 6' LANYARD COMBO

This combination set provides a starting point for building a complete personal fall arrest system. Includes universal fit harness and 6' shock-absorbing lanyard. Harness features back D-ring, mating legs and chest buckle. Lanyard features single leg with 2 snap hooks. Meets applicable OSHA and ANSI regulations.

761317

MILLER® STRETCHABLE HARNESS

Features stretch webbing that provides greater comfort, safety, and mobility. Pull-free lanyard rings allow the user to attach lanyard when not in use. Belt loops accommodate a tool belt. Universal size. Meets or exceeds all OSHA, ANSI, and CSA specifications.

B312994

PROTECTA® FIRST™ HARNESSES

Protecta Harnesses are made from strong, durable 100% polyester and constructed to last through your toughest job. Universal one-size fit. Comes standard with back D-rings for fall arrest. Available with either tongue buckle legs or pass-thru buckle legs. Meets OSHA 1926 and ANSI Z359.1 standards.

795490

Model	Description
795490	Pass-thru buckle
795491	Pass-thru buckle w/side D-ring
795492	Tongue buckle
795493	Tongue buckle w/side D-ring

MILLER® FULL-BODY HARNESS

- Designed to meet common fall protection needs
- Provides fundamental fall protection at an exceptional value
- 5 points of adjustment for a custom fit
- Lightweight and comfortable

708495

PRO™ PACK SHOCK-ABSORBING LANYARD

Durable webbing and plated alloy steel hardware for strength and corrosion-resistance. Energy-absorbing design limits fall arrest forces. User-friendly self-locking snap hooks at each end. High-quality compliance at an affordable price. 6' lanyard is compact and lightweight at 2.3 lbs. Meets OSHA 1910.66, OSHA 1926.502, and ANSI A10.32.

436801

I-BEAM TROLLEY

I-Beam Trolley provides a fast and safe tie-off point for personal fall protection systems. Installs onto I-beam flanges from 3" - 8" in width and up to 11/16" thick. Ideal for use with self-retracting lifelines. Features easy-to-use dual-adjustment dials. Meets OSHA and ANSI Z359 standards.

B312014

AUTO-LOCKING CARABINER

- Spring-loaded keepers with 1" gate opening
- Use as anchorage connectors
- Rated for 400 lbs. maximum capacity
- Meets or exceeds OSHA 1926.502, ANSI Z359-2007, and CSA Z259.12 requirements

B861869

GET A GRIP ON SAFETY

According to the US Bureau of Labor Statistics, hands are the second most frequently injured body part.

How to choose the right glove: Observe the physical environment where the gloves will be worn. Will the user's hands get hot and sweaty? Does the person need a thin glove to feel and handle parts? Do they use a touch screen? Will the hand get wet? If so, what kind of liquid: water, oil, gas, acid, etc.? Will they need to remove and put on the gloves to perform actions?

Liner:

Base material of the glove that provides overall strength.

Nylon Knit: Lightweight, durable fabric. Stretchy, conforms to hand.

Polyester: Durable fabric, resistant to UV rays. Slightly stretchy.

Poly/Cotton: Blended material with added elasticity.

Grip:

Imprinted patterns or parts of coating material to enhance the functionality of glove in their intended environments.

Smooth: Excellent dry grip. Liquids will not absorb into coating to keep hands dry.

Foam/Micro Foam: Channels liquids away to allow better handling in wet and dry conditions.

Crinkle: Provides added protection against cuts and punctures while channeling liquid for better handling in wet and dirty conditions.

Sandy: Added abrasion resistance and better handling in wet environments.

Coatings:

Materials that determine the purpose and application of a glove.

Nitrile: Excellent dry grip, good wet grip.

Latex: Good dry and wet grip.

Polyurethane: Good dry grip. Excellent tactile sensitivity

Gauge:

Number of stitches per square inch. Higher gauge gloves are thinner and provide better dexterity.

FUEL YOUR BUSINESS & KEEP IT SAFE.

B2680334

CO2 FIRE EXTINGUISHERS

Carbon dioxide is discharged as a white cloud of "snow" that smother a fire by eliminating oxygen. It is effective for Class B flammable liquids and is electrically non-conductive.

Model	Lbs.
B2680334	5
B2680335	10
B2680336	15

B2680338

DRY CHEMICAL FIRE EXTINGUISHERS

ABC or multi-purpose extinguishers utilize a specially fluidized and siliconized mono ammoniumphosphate dry chemical. It chemically insulates Class A fires by melting at approximately 350°F and coats the surface to which it is applied. It smothers and breaks the chain reaction of Class B fires and will not conduct electricity back to the operator.

Model	Type	Lbs.
B2680341	ABC	2.5
B2680338	ABC	5
B2680339	ABC	10

DRENCH SHOWER

Shower is horizontally-mountable to the floor to provide quick access to overhead flushing of corrosive elements from affected areas. Pull rod-activated for immediate water flow. Includes ANSI-compliant identification sign. ETL listed 101496/ANSI Z358.1-2014. Also available in stainless steel: **708384SS**.

708563 REFILL BOTTLE

GRAVITY-FED PORTABLE EYEWASH STATIONS

This 20-gallon emergency eyewash station is portable and easily mounts to the wall of any nearby working location for quick access to eye flushing or spot washing. A drench hose on the side of the basin allows users to quickly spot-wash away chemical exposure on the body. Meets ANSI Z358.1-2009.

Model	Description
708387	Gravity-Fed Portable Eyewash Station
708563	Emergency Eyewash Preservative, 8 oz.

708381

708382

708383

EMERGENCY EYEWASH STATIONS

Emergency eye wash and shower stations are essential for industrial spaces where chemicals or hazardous substances are used. Eyewash basins have push handle activation for hands-free operation once unit is activated. Includes ANSI-compliant sign. ETL listed 101496/ANSI Z358.1-2014. Also available in stainless steel version; add suffix SS to model number.

BLUFF RACK GUARDS

This heavy-duty Rack Guard can prevent, or lessen, the damage from forklift or pallet truck impacts. It has a wraparound design that protects the rack from both front and side damage and easily bolts to the floor for extra strength and stability.

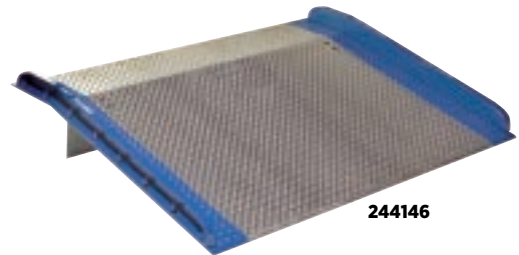

986636

EZ-PULL EDGE OF DOCK LEVELER

The Bluff® EZ-Pull Dock Leveler is positioned by lifting and pulling the self-storing handle to the dock floor. The latch assembly activates the leveler lip forward to the floor of the trailer as the handle is lifted. When released, the handle automatically returns to the stored position when truck leaves. Included with each unit are twin 12¾" x 10" bumpers that extend 16¾" from dock face. Durable 3/8" thick steel safety plate and heavy-duty hinges.

Model	Item Description	Width	Capacity

986645	EZ-Pull Refrigerated Truck Edge of Dock Leveler	78	20,000

244146

ALUMINUM DOCK BOARD WITH STEEL CURBS

Ideal for warehouse settings, distribution centers, and manufacturing plants, this board combines the strength of steel with the lightweight properties of aluminum without compromising durability. Bolted-on steel curbs help prevent run-off and provides a handgrip for easy and safe handling during installation and removal. A safety stop on the underside of the board fits tight between truck and dock to prevent the board from moving during use. ANSI- and OSHA-compliant. Made in the USA.

ORGANIZE IT, SHELVE IT, STORE IT.

TOOL & SOCKET SETS

- Top brand sets from Crescent, Channellock, Proto, Sunex, & Stanley
- Ratchets & sockets feature a manufacturer limited lifetime warranty
- Sets include blow-molded cases for secure storage & transportation

Model	Description
761236	Crescent® 180 Piece Mechanics Tool Set
B1963336	Sunex Tools 43 Piece ½" Drive SAE Standard & Deep Impact Master Socket Set
B248154	Stanley 201 Piece Mechanics Tool Set

UTILITY KNIVES & BLADES

- Available in fixed, retractable, snap-off, & self-retracting safety knives
- Trapezoid, snap-off, round point, & blunt edge options available for basic or safety requirements
- Blade disposal containers allow safe & easy disposal of discarded blades

Model	Description
B323582	Starrett Hidden Edge Self-Retracting Safety Utility Knife
B323307	Stanley Heavy Duty Utility Blades W/Dispenser (100 Pack)
B323304	Stanley Blade Disposal Container

HEAVY-DUTY JOBS REQUIRE INDUSTRIAL-STRENGTH TOOLS.

B231028

JET has provided the industrial marketplace with quality, innovation, and service for more than 60 years. Fueled by innovative product development, JET continues to establish itself as a full-line industrial tool brand.

B241865

WILTON has been making industrial work-holding equipment and striking tools for more than 80 years. It has painstakingly built a reputation for quality, durability, and reliability.

B3055700

Founded in 1999, Baileigh markets, manufactures, and distributes over 500 metalworking and woodworking products sold throughout the US & Europe. Through its wholly-owned subsidiary, RMD, Baileigh designs and manufactures "Made-in-the USA" Baileigh-branded metalworking machinery.

B1140904

Since 1921, Powermatic has been committed to making durable, quality tools for the master woodworker. With innovative products for both commercial and home hobbyists' shops.

TAMPER-PROOF FASTENERS & TOOLS

Tamper-proof security cap screws provide an added level of security with a drive design that prevents removal with ordinary screwdrivers. Tamper-proof security cap screws are ideal for repair work or construction projects. Engineered for a high degree of tamper-resistance and offering positive-engaging, high-torque transmission while resisting cam-out and tool wear. Matching driver bit required for installation and removal. Additional specifications vary per model.

Bits for tamper-proof security fasteners allow ergonomic fastener handling and control for repair, construction, automotive, and more. Matching driver bits for Phillips pin-head, 6-lobe pin-head, socket pin-in-hex, tri-wing, opsit & Snake Eyes screws. Bits used for removable spanner nuts are also available. Drive types are Phillips, socket, spanner, spanner nut, torx, tri-wing, and trilobular. Bits are available in both imperial and metric sizes.

EXCLUSIVE BRANDS

GALVANIZED POWDER COAT STEEL ROOF HATCH

14-gauge steel access hatch provides roof access for any building. The door seal, base insulation, and wool insulation ensure indoor climate control and reduced heating costs. Rust-resistant finish. The heavy-duty automatic lock arm secures the hatch. Comes in 2 sizes. 30x36" and 24x36".

713150

POWDER COAT STEEL ROOF HATCH SAFETY EXTENSION HANDLE

Mounts to roof hatches allowing easy egress and ingress via the safety ladder while ensuring a secure grip. Heavy-duty galvanized steel is fully welded for strength and durability. The yellow finish offers high visibility while preventing rust and oxidation.

713157

GALVANIZED STEEL SAFETY RAILING FOR 24 x 36" & 30 x 36" ROOF HATCHES

Telescopic safety railing has a magnetic-close swing gate. Yellow finish offers high visibility while preventing rust and oxidation. Meets OSHA 1910.28 requirement for safe egress and ingress through rooftop hatch openings and OSHA 1910.29 fall protection system requirements.

713159

LADDER SAFETY POST

Supports fixed-ladders under access doors and manhole covers. Bracket automatically locks in the fully-raised position for stability. Easy-release lever. Supports heavy-duty ladders. High-visibility yellow finish prevents rust and oxidation. Accommodates multiple ladder types.

713158

MULTI-PURPOSE METAL ACCESS PANEL

Designed for walls or ceilings, this 24" x 24" panel can be painted to match the surrounding walls, permitting unobtrusive, secure key-lock access for inspection or maintenance purposes. Frame and door are 16-gauge steel with a 1" wall flange, concealed hinge, and an included flush cam-lock.

602332

ALUMINUM DOOR CLOSER

Ideal for internal and external use on public or commercial buildings, closers meet ADA requirements for opening force. It can be adjusted to control the opening and closing force and speed. Backcheck cushions prevent uncontrolled opening of the door. UL 10C fire rating; ANSI/BHMA A156.4 certified.

Indoff

MATERIAL HANDLING

Half A Century Of Material Handling Expertise

Indoff has been a nationwide distributor of material handling products since 1971. Our experienced Sales Partners access thousands of manufacturers to find the right product to meet your needs.

- Indoff is a full-service partner providing everything from design to install.
- Our specialization ranges from hand trucks to heavy-duty industrial machinery.
- Indoff can assist you with products including lockers, pallet racks, lighting mezzanines, safety and loading equipment, ergonomic equipment, ship-ping materials, industrial tools, modular walls, conveyor systems, & more.
- We provide access to the right product at competitive pricing from over 1,000 manufacturers.
- Indoff utilizes nationwide logistics firms to ensure proper transport of every order.

Here at Indoff, we:

- Ask the right questions and listen carefully to your answers
- Consider your needs from concept through completion
- Customize solutions based on current practices and future goals
- Provide access to hundreds of years of knowledge and experience
- Promise to strive to exceed your expectations
- Offer flexible financing options to help you manage cash flow

"Indoff gave us the best layout, the right products, and a good price backed by professional service, project management, and installation. We made the right decision."

- Atlantic Telephone

"The Indoff team is always very pleasant to work with, providing quick & proactive service to hundreds of branches throughout the country."

- Wells Fargo Home Mortgage

"Indoff is the sole provider of our office furniture. They have the knowledge & willingness to work any hour of the day to get the job done to our satisfaction."

- Michael Baker Corp.
